Tesla Investor Day 2026

Austin, Texas — March 19, 2026

Forward-looking statements: this presentation contains projections and targets that are not guidance and are subject to significant risks. Certain measures are non-GAAP; see appendix.

Agenda

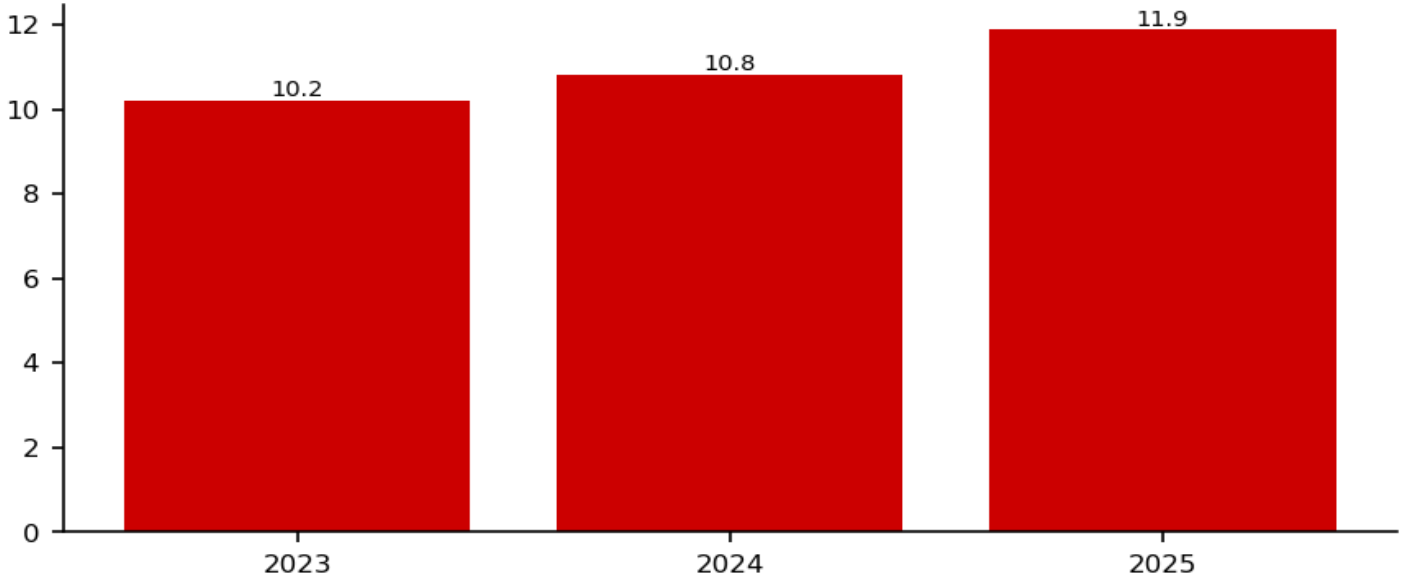
- 2025 in review
- Financial framework and adjusted EBITDA
- Energy: the next growth engine
- Autonomy and Robotaxi roadmap
- Capacity and capital
- 2030 ambition
- Appendix: non-GAAP reconciliation

2025 in review

- Total revenues $76.5 billion, (1%) y/y
- Energy generation and storage revenue $12.0 billion, up 36%
- Adjusted EBITDA* $11.9 billion (16% margin)
- Free cash flow $1.6 billion; cash and investments $35.6 billion
- Record energy storage deployments of 46 GWh

* Adjusted EBITDA excludes stock-based compensation, restructuring and other items; see appendix for reconciliation to GAAP net income.

Adjusted EBITDA* trajectory



* Non-GAAP. GAAP income from operations in 2025 was $4.6 billion.

Energy: annualized run-rate

- Q4 2025 energy generation and storage revenue of $3.4 billion implies an annualized run-rate of $13.6 billion**
- Megapack 3 production ramping in Shanghai and Lathrop; Megafactory 3 site selected
- Gross margin in Energy above 30% for the fourth consecutive quarter
- Backlog covers more than 18 months of production

** Annualized run-rate is the most recent quarter multiplied by four and is not a forecast. Q1 2026 deployments were seasonally lower.

Autonomy and Robotaxi

- Unsupervised FSD operating in three metro areas; fleet of 2,400 vehicles
- Target: 25 metro areas by end of 2027
- Cybercab production start: Q4 2026 at Giga Texas
- Illustrative unit economics: $0.35 per mile cost, $1.10 per mile revenue

Illustrative figures are management assumptions, not forecasts.

Capacity and capital

- Installed vehicle capacity 2.6 million units; utilisation 72% in Q1 2026
- 2026 capital expenditures of approximately $9 billion
- No external financing planned; investment funded from operating cash flow
- No share repurchases or dividends planned while growth investments remain

2030 ambition

- Energy storage deployments of 200 GWh per year
- Robotaxi network in 100+ metro areas
- Optimus: 100,000 units per year production capacity
- Adjusted EBITDA margin above 25%

These are ambitions, not guidance, and depend on regulatory approvals, technology development and market conditions.

Appendix: reconciliation of GAAP net income to adjusted EBITDA (2025)

($ millions)	2025
GAAP net income	4,305
Provision for income taxes	882
Other (income) expense, net	-612
Depreciation, amortization and impairment	4,591
Stock-based compensation	1,913
Restructuring and other	800
Adjusted EBITDA	**11,878**
